The Medinat cosmetics line exploits the extensive research which made possible the production of organic oils enriched with ozone and active oxygen ensuring the better organoleptic characteristics with excellent stability over the time.

Our products, made after decades of research and experience in the area, are created following the original protocol developed

by Dr. Lamberto Re, ensuring a high peroxide value (800-1200) in the active ingredient (OzonVital®) made with sunflower oil realized by the Italian company placed in Venezia, Lacoser,

under the supervision of Medinat® SAS (see the technical sheet).

The active ingredient is added in increasing percentage in the various products, according to the optimal formulation of their components, guaranteeing cosmetological and antiseptics effects to the whole body.

After the contact with the biological tissues, ozonides are quickly released activating a series of positive effects:

1. high germicidal activity on fungi, yeasts, viruses and bacteria;
2. activation of local microcirculation;
3. stimulation of granulation and tissue growth in wound or ulcers;
4. revitalization of epithelial tissues;
5. antioxidant and protective actions.

Local application of ozonated oils produces amazing results comparable to the treatment with ozone injected in gaseous form; it produces protective effects on the skin showing intense soothing and antiaging actions.

OleoRevive®

Total Body Cream
Coadjutant in the Imperfection of Cellulite

OleoRevive® is a cream enriched with ozonated vegetable oil containing peroxides and ozonides. It is recommended for treatments against cellulite. These components are stabilized and combined with selected natural extracts to reach a natural revitalizing formula favoring flexibility and elasticity of the skin.

Useful for damaged or inflamed cutis it also produces a strong lipolytic action. OleoRevive® protects from damages caused by environmental pollution and it is useful for the defense against free radicals. OleoRevive® is formulated with OzonVital®, ozonated sunflower oil according to the original procedure developed by Dr. Lamberto Re, Medinat® sas.

Anti-aging and anti-cellulite effect

Activates the microcirculation.

Prevents wrinkles, aridity, peeling and itch.

Relax and soften the skin.

Accelerates fat metabolism and its regulation.

OleoRevive® is a cream rich in ozonated vegetable oil, useful for the imperfection of cellulite.

OleoRevive® is useful for the imperfection of cellulite. Rich in highly innovative natural extracts.

- Hydrates, stimulates and revitalizes skin cells fixing the epithelial tissue;
- Favors the metabolism of adipose tissue;
- Useful for the regeneration of tissues;
- Favors nutritious mechanisms and the levels of tissues oxygenation;
- Activates the microcirculation modulating nitric oxide release.

Accelerates the metabolism of adipose tissue inducing a physiological lipolysis.

Stimulates the tissues regeneration and the enzymatic defenses against free radicals inducing a strong antioxidant stimulus.

Route of administration / Dosage:

Apply twice a day on the affected surface.

Apply a low quantity, with gentle circular massage, until the desired effect is obtained.

Packaging / Storage:

OleoRevive® is available in white rounded KOS jar of 100 ml (3.38 fl.oz.).

Store OleoRevive® in the refrigerator (4° C to 8° C; 39° F to 46° F).

Produced by Lacoser, on behalf of Medinat sas, Ancona, Italy.

OleoSan®

Total Body Oil
Natural Hygienizing Action

OleoSan® is enriched with ozonated vegetable oil and has a natural hygienizing and sanitizing action. It is a good coadjutant for antimicrobial and antimycotic treatments of skin. It can be used as a prophylactic treatment in diabetic foot. It has a strong deodorizing property.

OleoSan is also an effective coadjutant for the anti-reddening treatments of skin and herpes lesions. Continue the treatment until the appearance of the desired effects. OleoSan® is formulated with OzonVital®, ozonated sunflower oil according to the original procedure developed by Dr. Lamberto Re, Medinat® sas.

- Useful for skin redness;
- Coadjutant in the treatment of skin imperfections;
- Sanitizing action on bedsores, hyperkeratosis and herpes;
- Suggested on the prophylaxis of diabetic foot;
- Useful on epidermophytosis, nail infections of feet and hands, pityriasis, tinea and herpes viruses;
- Useful also as keratolytic in psoriasis.

Additional effects: strong deodorizing action for feet and intimate areas.

Route of administration / Dosage:

Apply two or more drops until covering the affected area, two/three times per day. Continue with the treatment until symptoms will disappear.

Packaging / Storage:

OleoSan® is available in white glass bottle of 30 ml (0,84 fl. oz.) with dropper.
Store OleoSan® in the refrigerator (4° C a 8° C; 39° F a 46° F).

Produced by Lacoser, on behalf of Medinat sas, Ancona, Italy.

OleoSport®

*Total Body Fluid Cream
Oxygenated Product Useful in Training*

OleoSport® is a fluid cream enriched with ozonated vegetable oil combined with selected natural extracts. It is recommended in training both in preparation for the competition and after any heavy works thanks to its relaxing properties.

Useful for all the muscular distresses it helps to obtain a soothing effect and reducing lactic acid formation. Highly recommended in all those activities that require energy production (Body Building, Sports, Extreme Activities). OleoSport® is useful in pain caused by muscular stress such as back pain, cervical pain, knee and shoulder pain.

OleoSport® is formulated with OzonVital®, sunflower oil ozonated according to the original procedure developed by Dr. Lamberto Re, Medinat® sas

- Soothing effect after intense muscular work;
- Useful when lactic acid is over produced;
- Useful in stretching;
- Indicated in all physical activities that require an over production of energy and ATP;
- Reduces pain and inflammation by modulating the release of neuro-mediators;
- Activates microcirculation and reduces muscle damage by modulating the release of nitric oxide in the endothelial walls;
- Modulates the production of antioxidant enzymes reducing the excessive formation of lactic acid favoring tissue oxygenation;
- Useful in sprains and pain caused by acute and chronic damages to the joints such as shoulder, knee.

Additional effects: strong deodorizing action for feet and intimate areas.

Route of administration / Dosage:

Apply in the area affected by the pain two or three times a day. In preparation to physical stress, apply gently on legs and arms until completely absorbed.

Packaging / Storage:

OleoSport® comes in white pipes from 100 mL (3.38 fl.oz.) with dispenser.

Store OleoSport® in the refrigerator (8 °C a 20 °C; 46 °F a 68 °F).

Produced by Lacoser, on behalf of Medinat sas, Ancona, Italy.

OzonAge®

*Cream for Face and Neck
Natural Purifying*

OzonAge®, age-control, full natural cream with anti-wrinkle effect, is a cosmetic formulated by a balanced mix of active ingredients derived from plants and ozone to ensure the maximum effectiveness.

The proper use of this preparation is perfectly tolerated by the skin and this makes it an optimal cosmetic to obtain and maintain the epidermis with a clear improvement since from the first application.

It protects skin from damages caused by environmental pollution, ultra violet radiation and is useful in the defense against free radicals.

OzonAge® promotes the removal of toxins, reduces the imperfections of the skin and prevents the formation of new wrinkles. OzonAge® is formulated with OzonVital®, sunflower oil ozonated according to the original procedure developed by Dr. Lamberto Re, Medinat® sas.

- Prevents the formation of wrinkles;
- Activates the microcirculation;
- Stimulates tissue regeneration;
- Promotes flexibility and elasticity of the skin and repairs the epithelial tissue;
- Antioxidant effect;
- Prevents the aging of the skin.

Route of administration / Dosage:

Apply on the entire surface of the face avoiding direct contact with eyes, morning and evening, massage until completely absorbed. In case of contact with eyes, simply rinse with fresh water. Massage for a moment the face with movements from bottom to top.

Packaging / Storage:

OzonAge® is available in bottles of 30 mL (1.03 fl. oz.). Store OzonAge® in the refrigerator (8° C at 20° C, 46° F to 68° F).

Produced by Lacoser, on behalf of Medinat sas, Ancona, Italy.

What better than protecting yourself from the damage of ultraviolet radiation with a sunscreen enriched with Ozone?

Unique formulation with medium protection filter that keeps intact all the properties of active oxygen and ozone present in the main component of the product based on OzonVital®.

Not only protection, but delicate antioxidant and sanitizing activity that also benefits polluted areas of beaches around the world.

Enjoy sun exposure with all the benefits and well-being produced by OzoSolar®.

OzoSolar® promotes the elimination of toxins, reduces skin blemishes and prevents the formation of new wrinkles

OzoSolar®, integral sunscreen with medium protection filter, is a cosmetic formulated from a balanced mix of active ingredients derived from plants and active oxygen to ensure maximum effectiveness. It protects the skin from damage caused by ultraviolet rays and it is useful in defending against free radicals. OzoSolar® is formulated with OzonVital®, ozonated sunflower oil according to the original procedure developed by Dr. Lamberto Re, Medinat sas.

- Protects against UV rays;
- Activates microcirculation;
- Stimulates tissue regeneration;
- Promotes flexibility and elasticity of the skin and repairs epithelial tissue;
- Antioxidant effect;
- Medium sun protection filter.

OzoSolar® is the perfect sunscreen rich in highly innovative natural extracts.

For external use only.

Route of administration/dosage: Apply over the entire surface to be protected before exposure to the sun, massage until completely absorbed. In case of contact with eyes it is sufficient to rinse with fresh water. Spread on the face with movements from bottom to top.

Packaging/Storage: OzoSolar® is available in white PE tube of 200 ml (6.8 fl.oz.) with dispenser. Store in the refrigerator (8°C to 20°C, 46°F to 68°F).

Produced by Lacoser, on behalf of Medinat sas, Ancona, Italy.

OzoFacecleanser®

*Cleansing Cream with Active Oxygen and Ozone
Ozonated Milk for Deep Facial Cleansing*

The ideal product to cleanse, protect and revitalize your face after make-up?
Try OzoFaceCleanser® and you will be thrilled with its delicacy and sweet fragrance.

The plant extracts added to the basic formulation enriched with ozone make the product unique as a cleansing milk to be used on all occasions.
Just try it once to be amazed by its soft and sensational massage to the delicate skin of your face.

OzoFaceCleanser®, cleansing milk, natural integral cream with relaxing effect, is a cosmetic formulated from a balanced mix of active ingredients derived from plants and ozone to ensure maximum effectiveness.

The correct use of this preparation is perfectly tolerated by the skin and this makes it an optimal way to clean and protect the face. It is useful in defending against free radicals. OzoFaceCleanser® promotes the elimination of toxins, reduces skin imperfections and makes the skin softer. OzoFaceCleanser® is formulated with OzonVital®, ozonated sunflower oil according to the original procedure developed by Dr. Lamberto Re, Medinat sas.

- Purifying emollient moisturizer;
- Activates microcirculation and oxygenation of tissues;
- Promotes flexibility and elasticity of the skin and repairs epithelial tissue;
- Antioxidant effect;
- Prevents skin aging.

OzofaceCleanser® is the perfect cream to cleanse the face from makeup. Rich of highly innovative natural extracts. Route of administration/dosage: Apply to the entire surface of the face avoiding direct contact with eyes. In case of contact with eyes it is sufficient to rinse with fresh water. Massage the face for a moment with movements from bottom to top.

Packaging/Storage: OzoFaceCleanser® is available in white PE tube of 200 ml (6.80 fl. oz.) with dispenser. Store in the refrigerator (8°C to 20°C, 46°F to 68°F).

*Soothing Cream with Active Oxygen and Ozone
Useful in muscle and joint pain and after any type of trauma*

The well-known modulation of pain syndromes by ozone is enhanced by OzoDol®.

Created by integrating some natural painkillers such as arnica montana and devil's claw, it achieves maximum effect by effectively integrating the effects of ozonated oil as a modulator of pain and inflammation mediators.

Used constantly every day, especially after trauma or injection therapy, it relieves pain in the area undergoing medical treatment.

OzoDol® is a product formulated from a balanced mix of active ingredients derived from plants and ozone to ensure maximum effectiveness.

The enrichment with plant substances with known pain-relieving properties such as arnica and devil's claw makes it a special product to reduce pain and inflammation.

The correct use of OzoDol® is perfectly tolerated by the skin and this makes it an optimal product also to keep the skin healthy and protected with a clear improvement from the first application.

OzoDol® promotes the elimination of pain, reduces damage from trauma and relieves pain sensation after injection treatment applied immediately after the outpatient session of medical ozone.

OzoDol® is formulated with OzonVital®, ozonated sunflower oil according to the original procedure developed by Dr. Lamberto Re.

- Prevents inflammation of the dermis;
- Modulates anti-inflammatory cytokines;
- Stimulates tissue regeneration and oxygenation;
- Promotes flexibility and elasticity of the skin and repairs epithelial tissue;
- Pain-relieving and soothing effect.

OzoDol® is the essential product for clinics where ozone treatments are performed, as it is rich in highly innovative natural extracts for pain control.

Route of administration/dosage: Apply to the entire surface of the affected area, massage until completely absorbed. In case of contact with eyes, simply rinse with fresh water.

Massage your face for a moment with movements from the bottom to the top.

Packaging/Storage: OzoDol® is available in 100 ml (3.4 fl. oz.) white PE tubing. Store in the refrigerator (8° C to 20° C, 46° F to 68° F)

Produced by Lacoser, on behalf of Medinat sas, Ancona, Italy.
